Carbide Series™ Air 540
Arctic White ATX Cube Case

25-Word Product Description	Carbide Series Air 540 is designed with dual chambers to deliver cooler air to your CPU and graphics cards without your drives or power supply getting in the way.
50-Word Product Description	The smart, unconventional design of Carbide Series Air 540 utilizes dual chambers to deliver cooler air to your CPU and graphics cards without your drives or power supply getting in the way. The included custom Air Series AF140L-White LED intake and AF140L exhaust fans deliver superior ventilation with less noise, and the Air 540 has room for advanced air cooling and water cooling setups.
100-Word Product Description	The unconventional design of Carbide Series Air 540 utilizes dual chambers to deliver cooler air to your CPU, graphics cards, motherboard, and memory without your drives or power supply getting in the way. The included custom Air Series -White LED intake and AF140L exhaust fans provide great airflow performance at lower noise levels than typical case fans. And, you can mount up to six 120mm or five 140mm fans, with 280mm top radiator support and room for a 360mm radiator on the front panel. Like all Corsair cases, Carbide Series Air 540 is designed for fast, neat, and satisfying builds. The tinted, oversized flush-mount side window lets you show off your work.
